Dear Parents

We are delighted that you are considering Mavericks International School for your ward's future. We believe in a joyful experiential learning environment wherein, each child is motivated to learn and participate wholeheartedly. An investment made in MIS, will surely pay many dividends through life. From the moment your child enters in the school who he is and where his potential lies is realized by him. Irrespective of background or caliber, here child is encouraged to be realized in a way that one can stride into the adult world easily, confidently, responsibly and independently. We believe that success does not come immediately & instantly. It only comes with sheer hard work and dedication. We encourage ourselves beyond our capabilities, striving for excellence & making the best of opportunities. We strongly believe if you are passionate about something, and follow your passion then success will be yours.

Also, always remember that nothing stays forever- neither success nor failure. The only thing that is constant in life is change. We have to accept the changes and challenges of life and be mentally focused, strong and determined. Keep learning about new things. God has created infinite capacity in everyone, make use of it, handle adverse situations fearlessly & with courage. Here I wish to quote Gandhi Ji's advice which holds great relevance even today: "Live as you were to die tomorrow but learn as if you were to live forever". I am confident if one enjoys & lives with these values, one will definitely lead a long way & achieve success in all spheres of life!

Wishing you all the very best !

With regards

Mr. Ramesh Chauhan  
CHAIRMAN

DEAR READERS

“Education is a progressive discovery of our own ignorance” - (Albert Schweitzer)

- Education is simply the soul of society as it passes from one generation to another. I have always believed that education is not merely about knowledge but it's about all round development of the child.
- School is a temple of learning. Each child enters in it with immense inborn talent and creativity with anticipation to materialize his /her dream and aspirations.
- Children are the most precious part of our nation, so they should be given utmost care by society. To score good marks is neither very important nor it is the ultimate goal of education. The most important is to create good and ideal citizen out of them without losing moral values.

In whole life there are only two lasting legacy i.e. Roots & Wings. The first one is offered by our loving parents & later one is always by our school & teachers.

At MAVERICKS, each day will be full of happiness & joy! when we see our children engaged in multi skilled activities, we often think : Let us keep alive the child's inborn sense of wonder, let us arouse their curiosity to discover the mystery of the world we live in!

The school follows the best teaching methods for the Holistic development of children. We at Mavericks International School create an atmosphere where child can realize his true potential. On behalf of the school, I welcome you and your ward to new academic session with best wishes and strengths.
